SERVICE NOTICE

New Requirement: Site Safety Training Information Signs at Construction Sites

Beginning October 15, 2019, general contractors must post worker safety information signs at construction sites where site safety training is required.

The signs must:

- contain specific information about required worker safety training, including all site safety training deadlines and the number of required training hours, and the information must
- be in all the languages used by workers to communicate at the construction site. In addition, the signs must
- be clearly visible to workers and must be posted at the construction site as follows:
 - **Sites with construction fencing** must post a sign at each egress point on the inside of the construction fencing, including vehicle delivery fence gates and existing loading docks.
 - **Sites without construction fencing** must post a sign at each egress point within the controlled access zone where construction is taking place and at each existing loading dock or location being used for construction delivery or access.

To comply with the new requirements, the posted sign must:

- be 44 inches wide and 30 inches high;
- have letters at least 1 inch (25 mm) high;
- have white letters on a blue background; and
- be made of a durable and weatherproof material such as vinyl, plastic, or aluminum that is flame retardant.

The Department has created a [template](#) of the worker safety information sign that complies with this new requirement. The template is available for download in multiple languages on the Department's [website](#).

NOTE: 1 RCNY §3301-03 will be published in the City Record October 15, 2019 and will be effective immediately.

POST UNTIL: December 31, 2019
